24	das	Ohr	<i>ear</i>
25	das	Haar	<i>hair</i>
26	der	Hals	<i>neck</i>
27	der	Rücken	<i>back</i>

1. Read through the list. If English is not your native language (or you are very good in English), write up the translations for the words in your native language.

2. While listening (or watching the video on YouTube), repeat all the words and the translation (in English or say your native language).

3. If you have a hard time saying the words or you are not sure if you say them correctly, do this step again, until you feel it is easy for you to do.

4. Now go to the next step. While looking at the list above (so you see the translation), go to the next step, where I say only the German word twice and every time repeat the word after I say it.

5. Repeat #4 if necessary and do this until this step is easy for you to do.

6. Go to the next step in the Podcast, where I say each German word once. While looking at the translation if needed, every time I say the German word you say the translation. Do this until you can do it for the whole list without looking. If it is hard, go back, repeat the previous steps and come back to this one. Do this until you can do it for the whole list without looking - including the article!

7. Listen to the next episode, download the worksheet for that episode and make those exercises. In the next episode you will learn a Sentence Pattern and you will learn easy sentences to use with these words and practice them.
